

FOURKITES INTEGRATION

USER MANUAL

Ljubljana, 1. July 2019

Introduction:

In the next following steps, we will explain how to integrate FourKites into mobileWEB application.

Step 1:

User login to mobileWEB application <https://mobileweb.cvs-mobile.com>

IMPORTANT!!! Only users who are owners or admin users can edit this function.

Step 2:

After successful login, user first create group of vehicles. This step must be done if they only need to display certain group of vehicles. If all vehicles need to be displayed there's no need to create separate group of vehicles

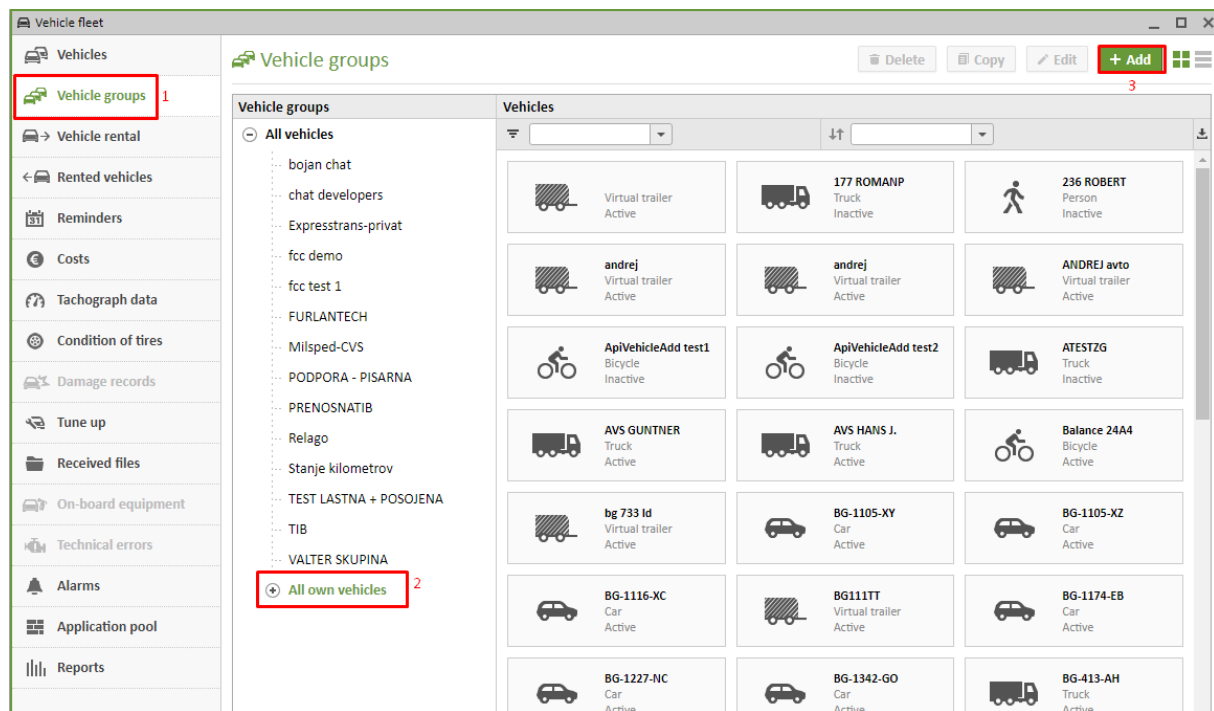

Select icon of car (Vehicle fleet)

New window opens

Here user select

- Vehicle groups(1) then goes under
- All own vehicles(2) and
- + Add(3)

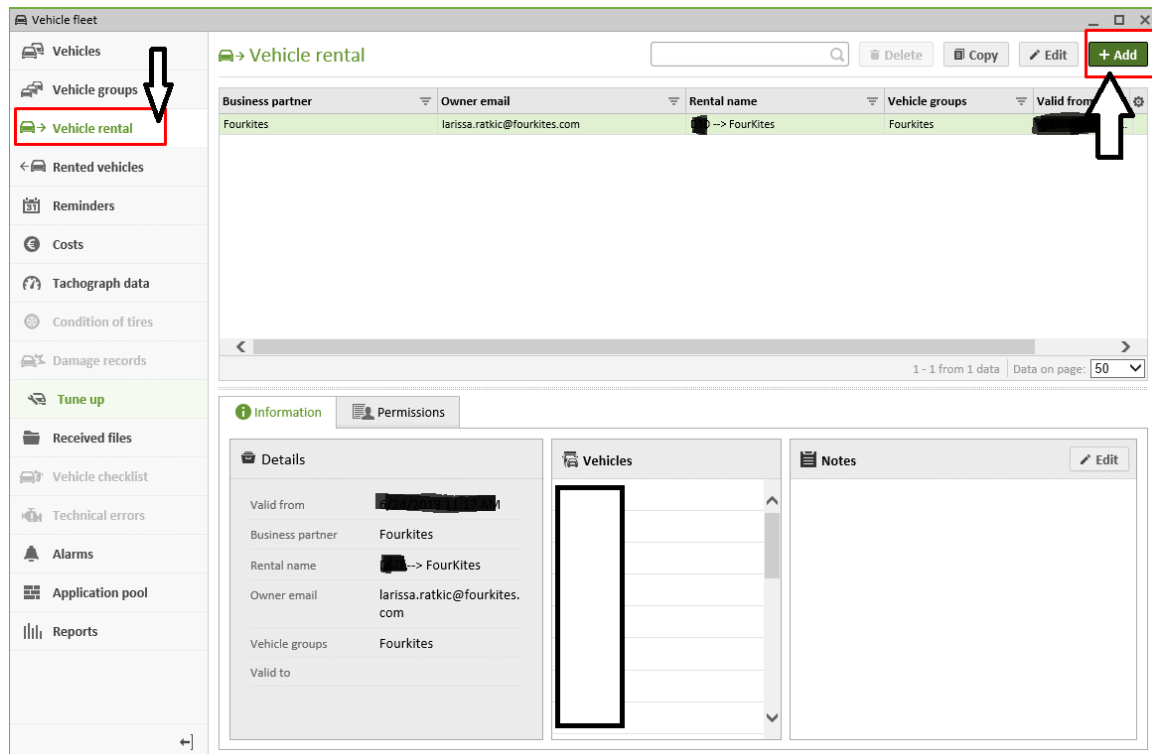

The screenshot shows the 'Vehicle fleet' application window. On the left, a sidebar menu has 'Vehicle groups' highlighted with a red box and the number '1'. Below it, 'All own vehicles' is also highlighted with a red box and the number '2'. In the top right corner of the main content area, a '+ Add' button is highlighted with a red box and the number '3'. The main content area is divided into two sections: 'Vehicle groups' on the left, listing various groups like 'bojan chat', 'chat developers', 'Expresstrans-privat', 'fcc demo', 'fcc test 1', 'FURLANTECH', 'Milsped-CVS', 'PODPORA - PISARNA', 'PRENOSNATIB', 'Relago', 'Stanje kilometrov', 'TEST LASTNA + POSOJENA', 'TIB', and 'VALTER SKUPINA', with 'All own vehicles' at the bottom; and 'Vehicles' on the right, displaying a grid of vehicle cards. Each card shows a vehicle icon, name, type, and status (e.g., 'Active' or 'Inactive').

When we press +Add, new window opens Vehicle group data. We create name(1) (in our case we created "Fourkites") then select vehicles(2) checkbox and press save(3). Group is now created.

The screenshot shows a window titled "Vehicle group data" with a close button (X) in the top right corner. At the top, there is a "Name" input field containing "Fourkites", a "Status" dropdown menu set to "Active", and an "Assigned drivers" field with a red 'X' icon and a minus sign. Below this is a "Select all" checkbox and a search icon. A list of vehicles follows, each with a checkbox and a UID number. The following vehicles are checked: UID-257, UID-259, UID-259, UID-259, and UID-288. A red '2' is next to each checked item. At the bottom right, there are "Save" and "Cancel" buttons.

UID	Selected
UID-247	<input type="checkbox"/>
UID-255	<input type="checkbox"/>
UID-257	<input checked="" type="checkbox"/>
UID-258	<input type="checkbox"/>
UID-259	<input checked="" type="checkbox"/>
UID-259	<input type="checkbox"/>
UID-259	<input checked="" type="checkbox"/>
UID-259	<input checked="" type="checkbox"/>
UID-259	<input checked="" type="checkbox"/>
UID-260	<input type="checkbox"/>
UID-275	<input type="checkbox"/>
UID-288	<input checked="" type="checkbox"/>
UID-290	<input type="checkbox"/>
UID-292	<input type="checkbox"/>
UID-293	<input type="checkbox"/>
UID-295	<input type="checkbox"/>

Step 3: In window “Vehicle Fleet” choose “Vehicle rental” and click “Add”

New window opens with Rental data.

User has to write next field:

- “Owner email”: larissa.ratkic@fourkites.com
- “Business partner” : FourKites
- “Rental name”: Company name → FourKites
- “Valid from”: choose date and hour from calendar

Choose vehicle group “FourKites” that we created before.

From Permissions menu choose just “Access vehicle list”

Click “Save”

Rental data

Owner email: larissa.ratkic@fourkites.com

Business partner: Fourkites

Rental name: --> FourKites

Valid from: [REDACTED]

Valid to: [REDACTED]

Vehicle groups

- All own vehicles
- Fourkites

Permissions

- Reports
- Map
- Vehicle list
 - Access vehicle list
- Chat
 - Enable chat for rented vehicles

Save Cancel
